MegEye-W4K-I31-N0

2.8'' indoor face recognition terminal, tiny design with brilliant performance, applied for small office, hotel, factory, apartment, etc.

50,000 database | QR& Face&Card&PIN Code | Accuracy>99.8%

MegEye-W4K-E75-N0

MEGVII

7'' outdoor face recognition terminal, superior recognition with most competitive price, applied for factory, commecial building, construction site, etc.

50,000 database | QR& Face&Card&PIN Code | Accuracy>99.8% | IP65

MegEye-W4K-E85-N0

8" outdoor face recognition terminal, superior recognition with smooth passing experience, applied for factory, commecial building, construction site, etc.

100,000 database | QR& Face&Card&PIN Code | Accuracy>99.8% | IP65

MEGVII

MegEye-W5K-E88-WQR-N0

8" outdoor face recognition terminal, superior recognition with smooth passing experience, applied for factory, commecial building, construction site, etc.

100,000 database | QR& Face&Card&PIN Code | Accuracy>99.8% | IP65 HID Module Option

MEGVII

Intelligent AI BOX

B4H Series is a cost-effective AI computing box product for edge-computing needs. By loading different industry algorithm packages, you can build computing box catering to your industry.

300,000 database | Face Recognition | Perimeter Alert | Behavior Analysis | Structure Analysis | Work Safety | Gas Station | People Count

MEGVII

MegCube-HAL3004-1S2-N0

MEGVII

software and hardware integrated equipment for the digital management needs of enterprise space.It can also utilize the existing video surveillance equipment to provide AI application support for upper-layer industry applications.

300,000 database | Face Recognition | Perimeter Alert | Behavior Analysis | Structure Analysis | Work Safety | Gas Station | People Count

MegEye-D3X-240-P

MegEye-D3X Series, create cost-effective AI cameras, empowering partners to serve the safe city, digital village, smart community and other industry customers.

MEGVII

Face Capture | Face Recognition | Perimeter Alert | Headcount

MegEye-C4H-240-P-X2812

MEGVII

It supports face recognition application with rich hardware peripherals, and can be closed looped for small scenes of access control application on a single machine.

Face Capture | Face Recognition | 100,000 databases| Access control
